GLEASON PROPOSED AMENDMENT #3

DATE PREPARED: March 30, 2006

COMPANY: Arizona Public Service Company
DOCKET NO: E-01345A-05-0373

OPEN MEETING DATES: April 4 and 5, 2006

AGENDA ITEM: U-3

Page 3, at line 18 INSERT new Findings of Fact to read:

"15. As proposed, the Grid-tied Photovoltaic option would provide a participating customer with a one-time payment of \$3.00 per watt-DC "based on the manufacturer's rating" (Exhibit A, page 4). However, to ensure that EPS Credit Purchase payments are made for electricity that is actually produced by the customer's system, we will require that the payment be based on the system's metered electricity output during its first year of operation.

16. As proposed, the Grid-tied Photovoltaic option also requires the participating customer to report the system's total generation (kWh) to APS on an annual basis (Exhibit A, pages 4 and 5). However, because the system's annual generation will determine the amount of the one-time payment to the customer and thereafter will determine the system's contribution to meeting APS' EPS obligation, we will require APS to make its own meter readings to determine the system's annual generation."

Renumber to conform

Page 13, STRIKE lines 9 through 11 INSERT:

"65. We will approve the APS EPS Credit Purchase program with the changes recommended by Staff herein. In addition, we will require that the one-time EPS Credit Purchase payment for a grid-tied photovoltaic system be based on the system's metered electricity output during its first year of operation, as discussed in Finding of Fact 15. As discussed in Finding of Fact 16, we will also require APS to make its own solar meter readings on systems installed after the date of this Decision to determine the systems' annual generation."

Page 13, between lines 22 and 23 INSERT:

"IT IS FURTHER ORDERED that the one-time EPS Credit Purchase payment for a grid-tied photovoltaic system shall be based on the system's metered electricity output during its first year of operation."

IT IS FURTHER ORDERED that APS shall make its own solar meter readings on grid-tied photovoltaic systems installed after the date of this Decision to determine the systems' annual generation."

Page 14, STRIKE lines 1 through 3 INSERT:

"IT IS FURTHER ORDERED that APS submit to Docket Control, within 15 days of this Decision, a new Exhibit A incorporating the changes adopted herein."

Page 14, line 4 STRIKE "Order" INSERT "Decision"

Amend Exhibit A to conform as follows:

Page 4, second paragraph, third line

STRIKE: "based on the manufacturer's rating"

INSERT: "based on the system's metered electricity output during its first year of operation."

Page 4, fourth paragraph, fourth and fifth lines

STRIKE: "Beginning in 2005, each customer is required to report the total system performance to APS on an annual basis."

INSERT: "On systems installed and approved by APS after the effective date of this Decision, APS shall make meter readings to determine the systems' total generation on an annual basis."

Page 5, last bulleted line

STRIKE: "The system generation (kWh) must be reported annually to APS."

INSERT: "On systems installed and approved by APS after the effective date of this Decision, APS shall make meter readings to determine the systems' total generation on an annual basis."

Make all conforming changes
